

## MMP100 | FINAL PROJECT STATEMENT

Title: Bird Sounds

Author: Rosmely Santana

Year: May, 2025

Software: Github, Twine, Visual Studio Code, Adobe Photoshop, Adobe Illustrator, ImageFX, Freesound.org

Live URL: <https://rosy1992-max.github.io/Spring2025/index.html>

Github: <https://github.com/Rosy1992-max/Spring2025>

Description: The story is about finding a book where you can hear the sounds of birds. The cover was a creative design using Adobe Photoshop and Adobe Illustrator. I used most of the software provided in class. I searched for sounds of different trees and inserted them on the website. It's an interactive website where you can find different types of birds. I hope you like it.
